We make Trex® eco-friendly composite decks from an innovative blend of 95% recycled wood and plastic film—that's almost the whole thing. On top of that, our company uses some of the most earth-friendly manufacturing processes in the country, reclaiming factory waste and eliminating the use of harmful chemicals. The fact is, being green is in our DNA. We've been this way for more than 20 years, well before green was a buzzword. Because in the end, all of us want to look out on our decks and know that we've done our part.
