18V 8-1/2 In. Single-Bevel Slide Miter Saw Kit
#GCM18V. Portable, powerful 18V miter saw design – a truly mobile jobsite solution, this light saw provides light weight and pro capacity. Pro capacity – delivers 3-5/8 In. nested crown cutting, with 47° left to 47° right cuts against fence and 10-5/8 In. crosscuts. Performance-optimized 18V Li-ion battery – engineered to deliver power and runtime for ideal performance-to-weight ratio. BITURBO Brushless Technology – a Bosch-exclusive brushless high-performance motor and drive-train system engineered to take full advantage of the additional power generated by 8.0 Ah and 12.0 Ah CORE18V batteries.

with One Battery
#GXS18V-12
and Bag #CW02.

\$239

18V EC Brushless SDS-plus® Bulldog™ 1 In. Rotary Hammer (Bare Tool)
#GBH18V. offers similar power to a corded hammer – with cordless convenience. It was designed with an efficient EC Brushless motor, which provides 50 percent more impact energy and greater tool runtime than previous-generation cordless hammers with brushes. It has KickBack Control, an integrated sensor to stop tool rotation in bind-up situations. Weighing only 6.3 Lbs. (tool only, not including battery), it delivers 1.9 Ft.-Lbs. of impact energy, for an outstanding impact-to-weight ratio.

New Cordless Bare Tools - Free Starter Kit with Purchase!

\$249

18V High-Torque Impact Wrench with Pin Detent
#HTH181B. Powerful motor – delivers up to 500 Ft.-Lbs. of torque to drive large fasteners quickly. Spring-loaded hammer-and-anvil system – delivers user control and managed torque thrust up to 1,900 rpm and up to 2,100 ipm. Metal front housing with 1/2 In. pin detent system – offers jobsite tough durability coupled with convenient changing of sockets.

18V CORE18V Starter Kit
#GXS18V-15. Free with purchase of any Bosch Bare tool shown on this page. CORE18V 4.0 Ah Compact Battery – provides next-gen power and runtime, while losing the weight, for tools used on the jobsite all day. Charging convenience – allows users to charge a Bosch 18V 4.0 Ah battery to 80% in 48 minutes or to 100% in about an hour.

\$199

18V EC Brushless StarlockPlus® Oscillating Multi-Tool
#GOP18V. Multi-tool versatility – accomplish flush-cutting, plunge-cutting, sanding, grinding, and many other tasks. Dynamic accessory range – utilizes all Starlock® and Starlock-Plus® accessories. Corded-like performance – power and speed comparable to the corded Bosch GOP40-30.

\$199

18V 3-1/4 In. Planer
#PLH181B. High-performance four-pole motor for fast stock removal and a smooth finish. Edge-guide fence – ensures consistent planing through entire workpiece; can be mounted on either side of tool and has protective shield that covers section of blade when not in use.

\$119

18V Compact Tough™ 1/2 In. Hammer Drill/Driver
#HDS181AB. Durable, heavy-duty chuck – better bit retention and great torque transfer. Innovative, lighter 18V canned motor – more compact but the same power. Compact Tough design – shortest head-length in class for maneuverability. Tough motor – all-day productivity with 600 In.-Lbs. of torque

\$149

18V EC Brushless Connected-Ready 1/4 In. Hex Impact Driver
#GDR18V. Powerful impact driver design – features a 1/4 In. hex, an efficient EC Brushless motor and variable-speed trigger. Bluetooth® connectivity – connects to optional Connectivity Tool Module to customize tool settings on a connected device. Compact Impactor design – features a head length of only 4.9 In., which makes reaching tight spaces easier.

\$159

18V Top-Handle Jig Saw
#JSH180B. Light weight & Compact – up to 30% lighter and up to 10% smaller than leading competitor. One-handed blade insertion and ejection for convenience and ease of use. Smallest grip diameter reduces user fatigue during extended-use applications. Always-on dust blower helps keep intended cut line visible.

\$129

18V 6-1/2 In. Circular Saw
#CCS180B. Ergonomic main handle – angled for ease in pushing the saw forward. 6-1/2 In. saw blade – cuts through 2 In. and cuts through 2 In. at 90° cuts through 2x material across entire bevel range. Blade-left design – supplies best view of cut line when main handle is held in right hand.

\$129

18V 1-1/8 In. D-Handle Reciprocating Saw
#CRS180B. Compact design, with a tool length of only 17.4 In. for tight spaces. Weighs only 6.35 Lbs., great for overhead work. Long 1-1/8 In. stroke for more efficient material removal. Two speed settings and variable-speed trigger, to ease into cut.
