Ipe the Most Beautiful Hardwood Decking on the Market
On Sale at Mead Clark Lumber

1x6 Ipe Decking

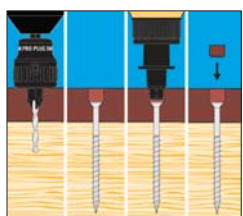

\$3²⁵ lin.ft.

8', 10', 12', 14' and 16' lengths

#16IPER. Random lengths, unfinished & surfaced four sides. Ipe exotic hardwood decking naturally resists wear, rot, splintering, termites, fire, chemicals and marine borers. The rich russet and reddish brown hues make your deck look like a beautiful hardwood floor. This is the best hardwood decking product available, one that is beautiful as well as durable. There are other cheaper hardwood decking materials on the market, but if you want a spectacular, top quality deck, built to last, you'll see why we choose to stock quality Ipe Hardwood Decking.

- Tight grain patterns with few (if any) knots
- When exposed to the natural elements Ipe will maintain its natural smooth surface
- One of the hardest woods in the world
- Naturally rot and insect resistant
- Ipe has a class A fire rating (same as concrete)

Use an exterior hardwood penetrating oil, such as Superdeck, to maintain the color and appearance of Ipe. After the initial seal you can maintain the color by sealing twice a year or as needed or, if left to weather naturally, the color ages gracefully to a soft grey patina. You can always pressure wash the deck to bring back the color and reapply the seal to maintain color.

Drill • Screw • Plug, in under 20 seconds. the ProPlug system is designed to save time and money while achieving a high-end and durable finish.

Pre-drill & countersink in one step with one tool! The Smart-Bit stop collar spins free of the drill bit, preventing marring or burnishing of the deck surface. The Powerbolic bit has a specially designed fluting that cuts through decking more than twice as fast as standard wood bits, even dense hardwoods.

#8x2-1/2" Trim Head #898165 350 pk **\$75**
#10x2-1/2" Flat Head #898618 1750 pk **\$380**

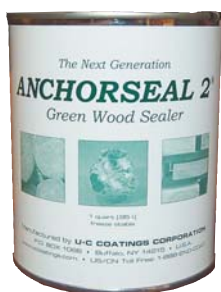

Stainless Steel Screws Brown Color Coated Heads

Designed to blend with IPE hardwood decking. Greatly improved appearance. Increased owner satisfaction. Stainless steel quality and durability.

\$20

AnchorSeal 2 Greenwood End Sealer

#ENDSEAL 1 qt. AS2® hybrid wax coating seals the end cuts of lumber to protect against end checking, moisture penetration and splitting. It is recommended that Ipe ends should be sealed immediately after cutting.

\$63⁹⁷

10" 84 Tooth Laminate Saw Blade

#342238. Diablo's specialty Non-Ferrous/Plastics thin kerf blade has a Triple Chip Grind (TCG) Tooth Design for long life and a clean, burr-free finish. TiCo Hi-Density Carbide specifically designed for non-ferrous, plastics, laminates and great for cutting IPE.

\$46⁵⁷

7-1/4" 56 Tooth Specialty Blade

#D0756N. You can't go expensive on the wood and expect to go cheap on the blade. For a better cut, go with Diablo, and the minimum I recommend is the D0756N, triple chip, 56 carbide tooth, non ferrous, specialty blade for hardwoods.
