Z-Max Moment Post Base

\$95⁵⁹ 4x4 Moment Post Base #MPB44Z

\$127⁴⁹ 6x6 Moment Post Base #MPB66Z

The new patent-pending Simpson Strong-Tie® MPBZ is the first post base specifically designed to provide moment resistance for columns or posts and the first product in the industry to receive the ICC-ES code listing for moment resistance. An innovative overlapping sleeve design encapsulates the post, helping to resist rotation around its base. The MPBZ is ideal for outdoor structures, such as carports, fences and decks. Built-in standoff tabs provide the required 1" standoff to resist decay of the post while eliminating multiple parts and assembly. Additionally, the MPBZ is available in ZMAX® as the standard finish to meet exposure conditions in many environments. 12 gauge.

EcoBatt® Insulation doesn't look like any insulation you've ever seen, but that's because its natural brown color represents a level of sustainability we've never before achieved. EcoBatt Insulation combines sand, one of the world's most abundant resources, recycled bottle glass and ECOSE Technology to create the next generation of sustainable insulation... naturally from Knauf Insulation.
