- **Trusted Craftsmanship:** Our products undergo rigorous testing to meet high standards of durability and performance, giving you confidence in their long term reliability.
- **Unmatched Warranty:** Enjoy peace of mind with Milgard's leading warranty and responsive customer service, securing your investment for years to come.

**Milgard® Trinsic™ Series:** If you've been looking for a contemporary vinyl window, the new Trinsic Series is for you. The frame profile is so narrow, you'll hardly know it's there. With the maximum available viewable glass area you'll enjoy amazing outdoor views. Plus, the low profile hardware, uniquely designed for this series, practically disappears from view.

**Thermally Approved Aluminum:** Popular with architects, aluminum windows and doors help accentuate the clean lines of modern design. Aluminum Series are not only beautiful, they are extremely durable to achieve unique architectural vision. aluminum frames are available in anodized or baked-on finishes for long lasting color.

**Milgard® Tuscany® Series Vinyl:** Crafted from a proprietary blend of premium vinyl, which marks the distinction when crafting for superior results. Tuscany Series windows also come with Milgard's newest features in hardware and security for a lasting impression.

**Milgard® Ultra™ Series Fiberglass:** Stay true through almost any environment. Because it's made from glass fibers, the frame expands and contracts at approximately the same rate as the insulated glass it holds. This puts less stress on the seals, reducing the chance for seal failure while allowing for a clear, fog-free view.

**Milgard® Style Line® Series Vinyl:** Crafted with narrow frames to allow for more visible glass area. The slim-profile design minimizes obstructed views between two windows, making Style Line Series a great choice to use in combinations that reflect a sleek, contemporary look. Frames are available in a multitude of neutral colors to blend with softer tones.

**AX550 Moving Glass Walls:** An innovative solution that blurs the line between where your indoor space ends, and outdoor living begins. Aspirational yet realistic, these sliding walls provide an elegant transition for indoor outdoor living that will help you create the home you've always wanted.
