

# Beautiful Hardwoods

TO BUILD YOUR OWN CABINETS, CLOSETS & SHELVES

At Mead Clark Lumber we know hardwoods! Inside our store you will find a comprehensive inventory of fine hardwood plywoods, hardwood lumber, trims and mouldings. Quality hardwoods are a must for fine cabinet makers, craftsmen and homeowners who know the difference it will make in their finished creations.

We also stock pre-finished, pre-cut, edgebanded Maple component parts for building cabinets, closets, shelves, doors and drawer boxes. ShortCutz components are edgebanded and finished with NOVA® Ultraviolet-Cured coatings, saving significant shop time.

If you are paneling a wall in your home, making bookcases for your mom's cookbooks or building a beautiful cabinet for your bathroom makeover, our experienced staff can show you the right materials you need to produce your work of art.

We stock the most popular species and sizes of hardwoods, including Oak, Maple, Poplar, Birch, Cherry, and Walnut, plus we can special order any other you may need. From Alder to Zebrawood, Jatoba to Obeche, domestic and imported, we know hardwoods - another reason why we've been Sonoma County's Lumberyard for over 111 years!
