

Outdoor Accents®

Add Beauty and Strength to Your Custom Outdoor Living Structures

SIMPSON
Strong-Tie

Outdoor Accents ornamental hardware from Simpson Strong-Tie bring decorative appeal and strength to any outdoor living space. These straps are easily installed with Outdoor Accents structural screws and hex-head washers sold separately. Features: ZMAX® galvanization on 12-gauge steel with a black powder coat offers extra corrosion resistance for exterior and treated-wood applications. Fits both surfaced and rough lumber. Fastener and washer create decorative bolt-like connections, but install with the ease of a screw and without predrilling. Post bases secure wood columns to concrete, while providing a 1" standoff height that helps reduce decay
