10" Jobsite Pro Table Saw
 #345806. Upgraded PRO model featuring an improved dust collection blade guard, deeper table and versatile low fence. towed dimensions: 26 1/2" L x 29" W x 45" H. Class-leading table Depth: 24 5/8" means better accuracy and easier, safer cutting. One Turn Elevation: Raise and lower the blade in just one turn on the hand wheel.

How SawStop Works -

The blade carries a small electrical signal. When skin contacts the blade, the signal changes because the human body is conductive. The change to the signal activates the safety system.

An aluminum brake springs into the spinning blade, stopping it in less than 5 milliseconds! Power to the motor is shut off.

Resetting the saw yourself is easy. Simply replace the blade and affordable brake cartridge and your saw is operational. The entire reset process takes less than five minutes.

SawStop 10" Compact Table Saw

#345800. The Compact Table Saw is the smallest, most portable saw in the SawStop lineup. It provides durability, precision, and power that can be taken to any job site. 10" BLADE: For maximum cut capacity The Rack & Pinion fence is easy to adjust and reliably square, with a built-in high and low face that supports all kinds of cuts. Quickly and easily tilt the blade to your ideal angle with just one hand. The micro-adjust feature provides the ability to dial in a precise cutting angle.
