MARVIN WINDOWS

OVER FOUR GENERATIONS, WE'VE
BUILT SOMETHING GREATER THAN JUST
A WINDOW AND DOOR COMPANY.

As a company built on a rock-solid foundation of values, we still make windows and doors the way we've always made them. One at a time. No shortcuts. Made to order. To each customer's exacting specifications. With techniques that have been refined, perfected and passed on through four generations, we take pride in building windows and doors the right way. The Marvin® way.

And as a leader in innovation, Marvin is dedicated to creating products that make the places where we live and work more functional, beautiful and meaningful. Our combination of superior craftsmanship and virtually unlimited design capabilities make Marvin the best total value on the market today.

IT TAKES MORE THAN WOOD, GLASS AND
HARDWARE TO MAKE A MARVIN WINDOW.

BUILT AROUND

LASTING VALUE YOU'LL ENJOY FOR YEARS TO COME.

The value of any Marvin® window or door goes far beyond the quality of its materials and construction. Marvin windows and doors are built to last, and function as beautifully as the day they were installed, long into the future. Each piece is crafted with wood interiors and exteriors that feature wood or durable, long-lasting extruded aluminum cladding. The same effort and attention to detail that we put into crafting our exceptional products, we put into providing the highest quality customer service. There's a reason you won't find Marvin Windows and Doors in the big box stores. It's only through dedicated independent dealers that we're able to offer an unparalleled level of support and expertise. We work directly with our dealers, one-on-one, to ensure we find the best solution to make your dream a beautiful reality.

Ultimate Casement Windows and Ultimate Inswing French Door with Painted Interior Finish

Stone White and Ebony cladding

BUILT AROUND
“OOH,” “AHH” AND “WOW”

Most manufacturers make you create your plans and build around their windows and doors. At Marvin®, we do just the opposite. With the most extensive selection of shapes, sizes, styles and finishing options, Marvin gives you virtually unlimited design capabilities and the flexibility to get exactly what you want. Choose from our wide variety of standard products, each with the ability to customize thousands of ways. Or, bring us a new idea that inspires you and our craftsmen will work directly with you to bring your fully custom vision to life. It's this unrivaled design flexibility that makes our windows and doors truly *Built around you*®.

BUILT AROUND
**MAXIMUM BEAUTY
WITH MAXIMUM
ENERGY EFFICIENCY**

With Marvin®, you don't have to sacrifice beauty to get the best in energy efficiency. We are committed to providing window and door options that will help control your long-term energy costs. Marvin offers an extensive roster of ENERGY STAR® qualified and NFRC certified products, as well as industry-leading options for energy efficiency. Whether it's multiple pane glass layers, reflective coatings that help block ultraviolet rays, insulating gasses injected between panes or advanced framing materials and design, we'll work together to find the best options for your specific climate and build site. All while providing our unmatched craftsmanship, service and made-to-order design flexibility. Marvin truly lets you have it all. Timeless beauty paired with superb performance.

DOESN'T A STUNNING VIEW
DESERVE A STUNNING WINDOW?

*Fixed windows and
Sliding Patio Door*

Contemporary Casement and Awning windows, Signature specialty window

BUILT AROUND
PERFORMANCE.
IT'S A BEAUTIFUL THING

For those who set a higher bar for energy-efficient building, Marvin® is your go-to window and door manufacturer. We know that windows are a key consideration in Net Zero, Passive, LEED® and other high-performance buildings, which is why architects, builders and homeowners want to work with a company known for producing innovative products with exceptional performance.

Marvin offers an exceptionally wide selection of wood and clad-wood products that meet the rigorous ENERGY STAR® Most Efficient criteria. In fact, Marvin offers over 20,000 certified window and door products and glass options that meet a .20 U-factor or lower. Work with Marvin to find the best combination of options to meet your energy performance goals.

THERE IS A BIG DIFFERENCE BETWEEN
A WINDOW AND A MARVIN WINDOW.

BUILT AROUND

THE PURSUIT OF WHAT'S POSSIBLE

At Marvin® Signature Services, we partner with your project team to solve the toughest design and site-specific challenges to create the most beautiful, one-of-a-kind window solutions ever imagined. From concept to completion, if you're going to put your name on it, the Marvin Signature will be there, too.

It's easy to look at a window bearing the Marvin Signature and admire its beauty and uniqueness. But creating that look often takes a feat of engineering that is no less impressive. The tougher the challenge, the brighter the Marvin Signature team shines. Whether it's replicating intricate historic or custom millwork, engineering large, complicated assemblies or inconspicuously meeting structural requirements for large expanses of glass, the Marvin Signature team makes the impossible possible.

MARVIN SIGNATURE

THE MARK OF AN ORIGINAL

*Signature custom-mulled
radius window assembly*

*Ultimate Inswing French Door,
Picture and Transom windows*

BUILT AROUND

CLEAN LINES AND CRYSTAL CLEAR VIEWS

With Marvin® Contemporary Studio windows and doors, big glass, narrow frames, clean lines and modern hardware combine to create open, light-filled spaces that seamlessly connect the great outdoors with the great indoors. Marvin's aluminum clad wood and wood windows are the perfect way to transform your cutting-edge vision into a modern masterpiece that maximizes light and minimizes clutter.

BUILT AROUND BEAUTY WITH A TOUGH SIDE

Give nasty weather something beautiful to look at when it rolls in. Impact- and cyclic-pressure tested StormPlus windows help to protect your home from hurricane winds, water and debris without compromising the design aesthetics. We use laminated glass, real wood, sophisticated locking hardware and commercial grade aluminum cladding to maintain their beauty for years and years, hurricane season after hurricane season. And we test them for whatever a hurricane can throw at them.

IMPACT AND CYCLE TESTED

An 8 foot 2 x 4 is launched from an air cannon at speeds of 50 feet per second. The glass will crack, but its laminated layers preserve the product's structural integrity. Finally, StormPlus windows and doors go through pressure cycling tests. A cycling test simulates the intense pushing and pulling forces of hurricane winds.

IMPACT ZONE 3

Meets International Building Codes for coastal areas in Atlantic and Gulf Coast states.

IMPACT ZONE 4

Meets International Building Codes for Florida counties of Miami-Dade, Broward and Monroe.

WINDOWS

THAT COMPLEMENT ANY ROOM

WINDOW

TERMS & DEFINITIONS

1. FRAME:

There are three components to the frame: the header across the top, the jambs down each side, and the sill across the bottom. Marvin® frames are built strong with a variety of high-quality wood species.

2. GLAZING:

The glass in a window is called glazing. Marvin's broad range of glazing options can meet both high-performance and refined aesthetic requirements.

3. LITE:

Each area of glass is called a lite, and Marvin offers divided lite patterns for whatever look you wish to create.

4. HARDWARE:

Marvin uses only the highest quality locks, handles, hinges, lifts and pulls, in a wide variety of durable finishes.

5. SASH:

The sash, operating or stationary, is comprised of horizontal rails, vertical stiles and glazing. Marvin's large solid sashes offer precise fit and ease of operation.

WINDOW

OPERATING STYLES

DOUBLE HUNG

Double hung windows have two movable sash which operate vertically.

CASEMENT

A window that is hinged to its frame at the side and opens like a door.

AWNING

An awning is hinged to the frame at the top and opens outward. If hinged on the bottom, it's called a hopper.

FIXED

An inoperable window with direct glaze or in-sash configurations. Available in a wide range of polygon and radius shapes.

TILT TURN

A European-style, dual function window that can swing in like a casement or open at the top like a hopper.

GLIDER

A window with sash that slides horizontally to open and close.

DOUBLE HUNG WINDOWS

Marvin® double hung windows combine state-of-the-art design with classic style. Advanced engineering and high-quality construction make our double hung windows incredibly durable, versatile and easy to use.

Next Generation Ultimate Double Hung Windows with Leather stain

*Next Generation Ultimate Double
Hung Windows in Stone White*

NEXT GENERATION ULTIMATE DOUBLE HUNG

THE NEXT CHAPTER IN OUR STORY OF INNOVATION

Introducing the Next Generation Ultimate Double Hung Window from Marvin®. A classic, reinvented. With its innovative keeperless hardware system, multi-point locking system, lockable vent mode and other performance and aesthetic-enhancing improvements, this window seamlessly combines state-of-the-art technology with Marvin's legendary craftsmanship, without sacrificing the traditional double hung look. It's our most revolutionary window yet.

KEEPERLESS HARDWARE SYSTEM

An industry first. We've eliminated the upper-sash keeper in favor of a more modern, streamlined system that controls all aspects of the double hung window's operation.

MULTI-POINT LOCKING SYSTEM

This revolutionary multi-point system locks directly into the jambs of the window.

AUTO-LOCKING SYSTEM

The first system of its kind that automatically locks when the window is closed. An audible "click" tells you the window is locked. You'll never again forget to lock the windows.

VENT MODE

This innovative feature, which you'll only find on the Next Generation Ultimate Double Hung, allows you to lock the window with four inches of clearance.

*Next Generation Ultimate Double Hung
Round Top Windows with Satin Nickel hardware*

NEXT GENERATION ULTIMATE DOUBLE HUNG ROUND TOP

OVERARCHING VERSATILITY

The Next Generation Ultimate Double Hung Round Top will add traditional arching and elegant lines to your home or historic preservation project. With the same features and grace of the Next Generation Ultimate Double Hung Window, this window offers design flexibility with numerous variations of radius shapes. Choose from multiple divided lite patterns to further enhance the arch of the window. These versatile windows, available in a wide range of sizes, can provide a subtle accent or a dramatic focal point to enhance your home design.

EYEBROW
RADIUS

HALF CIRCLE
TRANSOM

EYEBROW
TRANSOM

HALF CIRCLE
RADIUS

HALF
EYEBROW

VARIATIONS

EYEBROW RADIUS OPERATING DOUBLE HUNG - A classic look with a gentle eyebrow radius. Beautiful as a stand alone window or as part of an assembly.

HALF CIRCLE TRANSOM - This simulated half circle transom window can be sized to stand alone or easily fit above a double hung window.

EYEBROW TRANSOM AND PICTURE - This stationary window is available as a transom or picture window. These windows are designed to complement the Next Generation Ultimate Double Hung window with correlating sizes and matching at springline.

HALF CIRCLE RADIUS OPERATING DOUBLE HUNG - A dramatic window with a true half circle arch. The look gives a beautifully smooth transition from jamb to header. Both of the sash are operable.

ASYMMETRIC CURVE OPERATING SINGLE HUNG - This striking window style adds elegant curve to a two-wide window assembly.

NEXT GENERATION PERFORMANCE & FEATURES

THE INNOVATION BEHIND THE BEAUTY

ALUMINUM INTER-LOCK

Eliminates unwanted drafts and improves the window's overall structural integrity.

NARROW CHECKRAIL

Narrow checkrail of 1 15/16" provides a traditional look and feel.

DURABLE EXTERIOR CLADDING

Each window is backed by a 20-year warranty against chalking or fading according to AAMA 2605.

INDEPENDENT SASH OPERATION

Because each sash operates independently, either can be locked while the other is open, a feature that is unique to Marvin®.

EASE OF OPERATION

Improved balance systems make the sash operate smoothly at all sizes. And with the Marvin exclusive auto-lock system, locking the sash is effortless.

COMPLETE WOOD INTERIOR

For enhanced aesthetics, The Next Generation Ultimate Double Hung features a full wood interior, even in the jambs of the window.

PG RATING & THERMAL PERFORMANCE

As a leader in energy efficiency, most window sizes are PG50 rated. To maximize thermal performance, Tripane glass can be added without changing the aesthetics of the window.

SHORTER SILL LINER

Shorter minimal sill liner achieves a traditional design aesthetic, while the 14-degree sill bevel offers optimal water management and supports long-term durability efforts.

NEXT GENERATION HARDWARE SYSTEM

TRADITIONAL WITH A MODERN TOUCH

The Next Generation Ultimate Double Hung is the first and only window that does not rely on an upper-sash keeper. In its place is an innovative keeperless hardware system, which elegantly combines the traditional double hung look with easy operation, modern convenience and added peace of mind. All aspects of the window's operation and its various modes are controlled through this revolutionary new hardware system. Proof that sometimes less is most definitely more.

LOCK/UNLOCK

1. Slide sweep counterclockwise into the 135-degree position.
2. Both sashes can now be opened independently. The top sash, however, must be lowered before the bottom sash is raised. The bottom sash can be raised/lowered at any time.
3. To lock the window, simply slide both sashes into closed position. An audible "click" tells you the windows are locked.

VENT MODE

1. Slide sweep counterclockwise into the 135-degree position.
2. Raise the bottom sash a few inches, and return the sweep to the locked position.
3. Continue raising the bottom sash until it stops at 4" of clearance. You will hear an audible click. To close and lock the window, simply push the bottom sash all the way down.

TILT & WASH

1. Slide the sweep counterclockwise into the 135-degree position. Depress the button located on the top of the sweep, then continue to rotate the sweep to the 180-degree position.
2. To tilt, gently pull the top of sash from window jambs.
3. To reinstall the sash, hold down the button while simultaneously pushing the sweep into the 180-degree position. Gently replace the sash into the frame and release the button and sweep.

*Ultimate Double Hung
Magnum Windows*

ULTIMATE DOUBLE HUNG MAGNUM

HISTORY'S MOST POPULAR WINDOW SUPER-SIZED

If you look out a window to think great thoughts, think big. Marvin® Windows and Doors' Ultimate Double Hung Magnum Windows can be designed as large as 5 1/2' wide x 10 1/2' tall, so you have no size barriers when it comes to beauty and protection. With commercial-grade performance, this is the ultimate window for commercial buildings, historic renovation and new construction. Round Top options are also available.

INTERIOR

EXTERIOR

*Ultimate Insert
Double Hung Windows*

ULTIMATE INSERT DOUBLE HUNG

A WINDOW INTO EFFICIENCY

The Marvin® Ultimate Insert Double Hung Window adds quality craftsmanship, beauty and energy efficiency to your home without compromising architectural integrity. Its frame-in-frame design is built precisely to seamlessly fit into your unique window opening, so there's no need to remove the existing frame or disturb the exterior or interior trim of your house. Marvin's Ultimate Insert Double Hung Windows always fit into your existing space, and appear completely integrated into your home.

INTERIOR

EXTERIOR

*Tilt Pac® Double Hung
Sash Replacement System*

TILT PAC DOUBLE HUNG SASH REPLACEMENT SYSTEM

SO PERFECT YOU'LL THINK THEY CAME WITH THE HOUSE

For home renovations and historic replacement projects where the frame is in good shape, the Marvin® Tilt Pac® allows you to simply and easily replace only the sash and hardware with a fit so precise no one but you will know. In just four easy installation steps, you will enjoy the benefits of increased energy efficiency with the convenience of two-handed tilt-to-clean operation. It gives new life to old windows.

TILT PAC DOUBLE HUNG SYSTEM

MAGNUM TILT PAC

For extra-large sizes, try the Magnum Tilt Pac. Optional Magnum Panning Systems cover weathered exterior sills and trim with a new exterior of low-maintenance extruded aluminum panning.

*Ultimate Casement and Picture
Windows with Satin Nickel hardware*

CASEMENT & AWNING WINDOWS

Marvin® Casements and Awnings are innovative, high-performing windows. Delivering exceptional versatility, streamlined sightlines and clean profiles, these state-of-the-art windows are designed to suit virtually any application.

Ultimate Casement Windows with Simulated Divided Lites and Satin Taupe hardware

ULTIMATE CASEMENT & REPLACEMENT CASEMENT

WINDOWS SO VERSATILE, THEY DEFY CONVENTION

The Ultimate Casement and Ultimate Replacement Casement Windows are the most versatile and innovative casement windows ever produced. Featuring concealed multi-point locks, a patented wash-mode and durable hardware that operates smoothly even at the largest sizes.

ULTIMATE CASEMENT

A recessed sash for a traditional look, plus a full jamb offers design flexibility for new construction or full frame replacement.

ULTIMATE REPLACEMENT CASEMENT

The flush sash and narrow jamb make this window an easy choice for frame-in-frame replacement.

4 9/16" FULL JAMB

JAMBS & PROFILES

The Ultimate Casement has a recessed sash for a traditional or historic look. The Ultimate Replacement Casement has a flush-to-frame sash.

2 3/16" NARROW JAMB

ULTIMATE CASEMENT EASY WASH MODE

THE CLEANEST DESIGNS AND CLEANEST OPERATIONS

With engineering that is only matched by its timeless design, the Ultimate Casement brings light and air to your home in the easiest, most beautiful ways. Our Ultimate Casement Windows operate in a way so revolutionary that we've patented it, making Marvin® the only place to find it. The hardware itself is revolutionary: it allows access to both sides of the glass from the inside of your home, making window washing stress and ladder free.

REVOLUTIONARY WASH MODE

1. Crank handle twice.
2. Push down on the hardware arm, and push the window away. Then crank arm back.
3. Swing window all the way open, pulling it across toward the lock for accessibility to exterior glass.

Note: Marvin exclusive Wash Mode not available on Casement in sizes less than 20" wide, Ultimate French Casement, Ultimate Awning or Round Top Windows.

ULTIMATE CASEMENT FEATURES & OPTIONS

VERSATILE DESIGNS, INNOVATIVE IDEAS

RETRACTABLE SCREEN

When a screen is needed, simply glide the retractable screen across the window to put the screen in place. Opened or closed, the screen effortlessly integrates into the jamb of the window.

MULTI-POINT LOCKING SYSTEM

Multi-point locking mechanisms make large casements easy to operate, and enhances performance.

LARGE SIZES - ULTIMATE PERFORMANCE

We have developed the most durable hardware in the industry, which ensures easy opening and smooth operation on even the largest casements.

ENDLESS DESIGN OPTIONS

A variety of divided lite patterns, including a double hung look make energy-efficient casements the perfect replacement window in older homes.

WINDOW OPENING CONTROL DEVICE

Limits the casement sash opening to 4" or less when engaged. The release mechanism allows for operation beyond 4". This option is compliant with the ASTM F2090-10 standard specification.

SASH LIMITER

The Sash Limiter allows you to safely open your window on windy days. Flip a lever to lock the sash securely in place at multiple pre-set angles.

Ultimate Push Out Casement Windows

ULTIMATE PUSH OUT CASEMENT & PUSH OUT REPLACEMENT CASEMENT

THE ULTIMATE CASEMENT, PUSHED IN THE RIGHT DIRECTION

Our Ultimate Push Out Casements are a beautiful alternative to crank-out-style casement windows. This window offers all the advantages of modern technology, like our patented wash-mode and multi-point locks, wrapped up in the traditional look of a push out window.

ULTIMATE PUSH OUT
CASEMENT

ULTIMATE PUSH OUT
REPLACEMENT CASEMENT

PUSH OUT HARDWARE

Oil-rubbed bronze hardware is standard.

*Ultimate Push Out French Casement
and direct glaze Round Top windows*

ULTIMATE FRENCH CASEMENT & PUSH OUT FRENCH CASEMENT

AN OPENING THAT RIVALDS MOST DOORS

The Marvin® Ultimate French Casement pairs expert engineering with thoughtful design to offer a beautiful architectural window that won't compromise on performance or energy efficiency. The Ultimate French Casement has no center vertical post and opens like a French door. Simply crank open each independent sash or push out each sash and enjoy an unobstructed view.

INTERIOR

EXTERIOR OPEN

EXTERIOR CLOSED

INSWING CASEMENT

SWEEPING DESIGN FOR UNIQUE SPACES

The Marvin® Inswing Casement Window complements classic architectural styles. Inswing Casements are particularly desirable where an outswing window would interfere with a patio, deck or outdoor walkway. The Inswing Casement can open to 180 degrees, so it is completely out of the way when open. Also available in a French Inswing Casement for a sweeping, wide view when open, with no center post to spoil the scenery.

INTERIOR

EXTERIOR

ULTIMATE CASEMENT ROUND TOP

UNPARALLELED DESIGN FLEXIBILITY

The Marvin® Ultimate Casement Round Top is a great choice for designs that require large unobstructed views and the elegance of an arched shape. You can select from numerous round top shapes for design flexibility. The window can be used alone as a focal point or in combination with other windows.

HALF CIRCLE RADIUS
ULTIMATE CASEMENT

HALF CIRCLE RADIUS ULTIMATE
PUSH OUT FRENCH CASEMENT

EYEBROW RADIUS
ULTIMATE CASEMENT

HALF CIRCLE RADIUS
ULTIMATE CASEMENT

VARIATIONS

HALF CIRCLE RADIUS OPERATING CASEMENT - A dramatic window with a true half circle arch. The look gives a beautifully smooth transition from jamb to header.

HALF CIRCLE RADIUS OPERATING FRENCH CASEMENT - This striking window style adds elegant curve to a double sash window with no center post for a wide-open view.

EYEBROW RADIUS OPERATING CASEMENT - A classic look with a gentle eyebrow radius. Beautiful as a stand alone window or as part of an assembly.

TRANSOM - Stationary windows with either eyebrow or half circle arches can be sized to stand alone or easily fit above a casement window.

Contemporary Casement Windows

CONTEMPORARY CASEMENT & AWNING

THE IDEAL FRAME FOR A MODERN VIEW

Expansive glass and flush frames combine for massive views. Used solo or grouped with direct glaze windows for maximum daylight and increased airflow, these windows are available at some of the industry's largest sizes without compromising on performance.

CONTEMPORARY CASEMENT

CONTEMPORARY AWNING

2 3/16" NARROW JAMB

*Ultimate Awning Windows
with Satin Nickel hardware*

ULTIMATE AWNING & REPLACEMENT AWNING

GENEROUS AIRFLOW WITH MINIMAL EFFORT

The Ultimate Awning Window will let the fresh air in even during a light rain. It is designed for performance, aesthetics and quality. The Ultimate Replacement Awning is a beautiful, flexible solution for replacement or new construction projects. Featuring a narrow jamb, it can easily be installed into an existing window frame for a seamless window replacement. Both awnings are available in expansive sizes that set the industry standard for maximum visual impact and flexibility. The Ultimate Awning is available in sizes up to 72" x 72" and the Ultimate Replacement Casement is available in sizes up to 72" x 63". Also available with push out operation.

ULTIMATE AWNING

ULTIMATE REPLACEMENT AWNING

*Ultimate Casement Picture and Ultimate
Awning Windows with Espresso stain*

MORE WINDOW STYLES

Distinctive spaces demand distinctive windows. Marvin® offers a wide variety of shapes, sizes and operating styles to exactly match the design requirements of any building project. Looking for expansive views, uncommon shapes, unique functionality or dramatic emphasis? Marvin makes it - with beautiful craftsmanship and state-of-the-art performance.

*Ultimate Glider Window
with Satin Taupe hardware*

ULTIMATE GLIDER

EASY LIVING HAS NEVER BEEN EASIER

The clean look and easy, contemporary styling of Marvin® Glider Windows is complemented by innovative performance features and beautiful design options. The comfortable ergonomics make the windows a pleasure to operate. The clean lines complement any room and any décor. But the real beauty is the easy, one-handed locking system, which enables smooth, effortless operation.

INTERIOR

EXTERIOR

EASE OF OPERATION

The Marvin exclusive, automatic locking system features an easy-to-use hide-away handle that blends seamlessly into the sash. With one hand, you can unlock and open the window. Close the window just as easily and automatically lock with a concealed two-point lock.

*Ultimate Casement and Special
Shape direct glaze windows*

DIRECT GLAZE

ACHIEVE AN EXPANDED OUTLOOK

Direct glaze windows blur the line between inside and outside. Big glass, narrow frames and nearly unlimited shapes and sizes combine to create open, light-filled spaces.

DIRECT GLAZE

Direct glaze refers to a window with no sash. The glass is glazed directly into the frame and is stationary.

IN-SASH

In-sash windows are also non-operable, and they match the profiles of windows with operable sashes.

90 Degree Corner Window in Bronze

SPECIAL SHAPES

BOLD SHAPES MAKE BOLD STATEMENTS

Homes designed to express a unique vision need windows to match. From direct glaze windows with unique geometric shapes to 90-degree corners, Marvin® Special Shape Windows go beyond the usual rectangle and add dimension and drama to a window design. Choose from various shapes to match your ideal window.

CORNER WINDOW

SPECIAL SHAPES

*Tilt Turn Windows with
Satin Chrome hardware*

TILT TURN & HOPPER

OPENS HORIZONTALLY, VERTICALLY, AND MASTERFULLY

The Marvin® Tilt Turn Window is a European-style window with two distinct functions: swing it in like a door or tilt the top of the sash into your room for ventilation. One handle controls both operations. The Tilt Turn is a great window for unique situations where you want additional ventilation or access. For example, in European designs it is often used as an alternative to a door for access to a Juliet balcony and it can work well in a remodeling project where an egress option is needed.

TILT TURN INTERIOR

TILT TURN EXTERIOR

HOPPER WINDOW

A Hopper is a unit that tilts inward with the pivot point on the lowest edge. This window is the perfect companion to the Tilt Turn. It can also be a smart solution for adding ventilation or light in a lower level or in combination with a non-operating window.

TILT TURN OPERATION

Turn the handle and the window opens like a door. Turn it some more and it locks the bottom of the sash into the frame, tilting the top in to allow generous air exchange.

*Ultimate Venting Picture Window
with Painted Interior Finish*

ULTIMATE VENTING PICTURE

THERE IS MORE TO THIS PICTURE THAN MEETS THE EYE

The Venting Picture Window, exclusive to Marvin®, is a beautiful way to bring natural light into a room or to highlight a beautifully expansive outdoor view. And it can also be a source of fresh air. Designed with a patented hidden screen system, it opens evenly on all sides for passive air exchange. Just another way that Marvin's innovative products can add comfort and energy efficiency to your home.

INTERIOR

EXTERIOR

VENTILATION SCREEN

The airflow provided by an open Ultimate Venting Picture Window can help with a building's ventilation when positioned strategically with other windows. By itself, the Ultimate Venting Picture Window provides passive air exchange.

Window shown fully open to highlight black fiberglass screen mesh.

Bay Window

BAY & BOW

TAKE AN ORDINARY SPACE TO AN EXTRAORDINARY PLACE

Bring light and space into any room with the open, gorgeous look of traditional Bay or modern Bow Windows. Available in casement, double hung or picture windows, create a small nook, open up a view or simply add interesting space to a room. Marvin® makes installation easy for new construction and replacement projects.

BAY INTERIOR

BAY EXTERIOR

*Ultimate Inswing
French Door in Ebony*

DOORS

MAKE IT A GRAND ENTRANCE

DOOR

TERMS & DEFINITIONS

1. FRAME:

The door frame includes the head jamb across the top, side jambs and the sill at the bottom. Marvin® frames are built strong to stand up to heavy door usage year after year.

2. RAIL:

The horizontal wood members of a door are called rails, the vertical components are called stiles. The bottom rail on a French door design is about 8" high, harmonizing with traditional design preferences. On other doors, narrow bottom rails match 4 3/4" stiles for a clean, uncluttered appearance.

3. SILL:

Our door sills are made of Ultrex®, pultruded fiberglass based materials that are virtually impervious to time, weather and pressure. Ultrex door sills provide excellent performance in hot or cold climates, plus durability over the long haul by resisting warping, denting and fading.

4. PANELS:

In a door, the panel is the main section, operating or stationary, that is installed into the frame. Marvin doors come in many sizes, some of the industry's largest, but all share the tight tolerances for fit and quality finishes.

DOOR

OPERATING STYLES

SWINGING DOOR

Single or double swinging doors can open to the exterior or to the interior.

BI-FOLD DOOR

This door folds to the side and can include up to eight panels.

ARCHTOP DOOR

Single or double archtop doors can swing open to the exterior or to the interior.

LIFT AND SLIDE DOOR

Substantial door panels, for openings as large as 48' x 12', are easy to slide into a pocket or stack, when fully opened.

SLIDING DOOR

Save space with a door panel that operates by sliding along a track.

MULTI-SLIDE DOOR

Another option to blend interior and outdoor living with a modular frame system.

Ultimate Multi-Slide Door

DOOR FEATURES & OPTIONS

THE LOOK AND FEEL OF QUALITY

BEAUTY WITH PERFORMANCE

Designed for durability and to minimize air and water infiltration. Many of our door products are certified to a light commercial rating of PG40, which means longevity and performance over time.

MULTI-POINT LOCKING SYSTEM

Concealed stainless steel head and foot bolts within the door secure it solidly at three points. Choose either a keyed or non-keyed lever handle. Multi-point lock comes standard.

SOLID WOOD PANELS & FRAMES

The sound of a Marvin® door closing is a quiet statement of quality. Solid wood in the panels and frames make for an elegant, crafted look and feel, and provide a weather-tight closure for outstanding energy efficiency.*

ADJUSTABLE HINGE

Standard on swinging doors, an adjustable hinge makes it easy to fine-tune the fit of a swinging door over the door's lifetime. Available in a variety of finishes, plus coastal options.

LOW PROFILE SILL

This innovative sill option provides for a smooth transition between exterior and interior living spaces, and meets ADA compliance. Compatible with both wood and clad Ultimate Sliding French and Sliding Patio Doors.

RAISED AND FLAT PANELS

Raised and flat panels add depth and style to Sliding and Swinging French Doors, including Arch Top Swinging Doors. Available in wood or clad, this option changes the overall aesthetic of your door when less than a full lite of glass is desired.

* Standard in 13/4" and available in 2 1/4" panel thickness.

*Ultimate Swinging
French Door in Bronze*

ULTIMATE SWINGING FRENCH DOOR

AN ELEGANT ENTRANCE

The Marvin® Ultimate Swinging French Door is a modern classic that will complement any space. The Ultimate Swinging French Door is unmatched in fit, finish, sizes and configuration. The sill is made of tough Ultrex® that resists warping, denting and fading over the years. So when the weather comes knocking, our performance-tested, energy-efficient doors keep the weather outside. And the concealed multi-point locking system means it stays out. Available with matching sidelites and transoms.

INSWING

OUTSWING

*Window walls of Ebony Clad Ultimate
Casement Windows and Swinging Doors*

CONTEMPORARY DOOR

DOORS DESIGNED TO LET THE VIEW BE THE STAR

Modern residential design is fluid, dynamic and open. Marvin® Contemporary Inswing and Outswing Doors coordinate with 4 3/4" narrow stiles and rails to let more light pass unhindered through more glass. And the view is edged in 90° square glazing bead on the interior profile where glazing meets wood for a sleek, crisp look. It's an outstanding combination of simple clean lines, maximum light and flexibility.

INTERIOR

EXTERIOR

CONTEMPORARY DOOR HARDWARE

The handle lets you match the lines of the Marvin Contemporary Swinging Door with elegantly styled, complementary hardware. The default hardware for the Contemporary Door, this style is available in Satin Taupe, Dark Bronze, Oil Rubbed Bronze^{PVD}, or Satin Nickel^{PVD}. Square escutcheon. Striking, modern lever profile.

Ultimate Sliding French Door in Bronze

ULTIMATE SLIDING FRENCH DOOR

THE ART OF THE SLIDING DOOR CLASSICALLY FRAMED

For the classic elegance of the French door with smooth, space-saving operation, our Ultimate Sliding French Door is built to your specifications. With a rich, luxurious fit, feel, and finish, available in configurations up to 16' wide, this door offers a view with a grand entrance while conserving space for traffic flow or furniture layout. Available transom and stationary panels further enhance the view, flooding the room with daylight.

INTERIOR

EXTERIOR

Sliding Patio Door

SLIDING PATIO DOOR

THE PATIO DOOR EVERY PATIO DOOR ASPIRES TO BE

Marvin® Windows and Doors' contemporary, dependable Sliding Patio Doors are created for smooth operation, performance and amazing durability. Our tough Ultrex® sill withstands traffic and seasonal changes, contributing to both the door's energy efficiency and incredibly smooth operation. The contemporary 3" stiles and rails maximize your view, while the two-point lock system enhances performance.

INTERIOR

EXTERIOR

Ultimate Multi-Slide Door

ULTIMATE MULTI-SLIDE DOOR

BIG VIEWS ARE MADE EASY

Marvin® Scenic Doors bring the outdoors in by elegantly and effortlessly connecting your inside space with the environment found right outside your doors. The Ultimate Multi-Slide Door is another option to blend indoor and outdoor living, and the performance ratings of these doors match the exceptional views they frame. The modular frame system and drop-in panels simplify the installation process. They're available in styles up to six panels uni-directional or ten panels bi-parting.

INTERIOR

HARDWARE AND SILL FEATURES

The perfect combination: optimal functionality and modern aesthetics. Pull and latch hardware provides easy operation and squared-off corners for a clean, contemporary look. Available in Satin Nickel PVD and Oil Rubbed Bronze PVD finish. Choose from Flush, Performance and High Performance sill options.

DESIGN FLEXIBILITY

Available for pocket or stacked operation in openings up to 50' wide by 12' high. Pocket operation shown above. Both design options are available with an optional Scenic Door Ultimate Sliding Screen.

Bi-Fold Door in Ebony

BI-FOLD DOOR

LUXURY UNBOUND BY WALLS OR CONVENTION

The elegant Marvin® Bi-Fold Door is a stunning way to open up a room. Delivering a sizable patio door opening, up to 21' x 8', with a traditional look and contemporary operation, this door infuses a room with fresh air and spectacular views. One panel can be opened like a traditional door, or easily slide all the panels down the extruded aluminum track to open an entire wall. Sill options include: standard (shown), low profile and interior floor channel.*

INTERIOR

BI-FOLD HARDWARE SYSTEM

A substantial Bi-Fold hardware system was created specifically for folding doors in exterior residential and light commercial applications. Top hung engineering makes for ease of operation.

* Interior floor channel for interior use only.

Ultimate Lift and Slide Door

ULTIMATE LIFT & SLIDE DOOR

MAKE THE HORIZON A PART OF YOUR INTERIOR DESIGN

With openings of up to 48' wide and 12' tall, now you can add acres to your floor plan. Available with pocket panels that slide into the wall, completely disappearing from view, or stacked panels that slide and stack perfectly within the door frame for a seamless transition from outside to inside. Both are available with exclusive flush mount handles and exterior finger pulls that virtually disappear when not in use.

INTERIOR

HARDWARE OPTIONS

Industry-exclusive Flush Mount hardware blends beautifully into the door for a clean aesthetic. Intuitive design provides ease of use. Exclusive Flush Mount hardware, Interior Finger Pull (optional), Exclusive Exterior Finger Pull.

POCKET AND STACKED OPERATION

When open, panels either stack neatly or slide into the wall cavity. They glide on the inconspicuous 3/16" high exposed track. Stacked operation shown above.

*Pine wood with Espresso Stain and
Tan Shades in blackout opacity*

INTERIOR SHADES

INCREDIBLY FUNCTIONAL AND POSITIVELY STYLISH

Designed for Marvin® products only, our shades are fully integrated, matching any current Marvin interior finish and appearing as a seamless part of the window or door. Functionally graceful, there are no visible cords or pulleys and the window or door operates while the shade is in use. The fit is neat and precise with virtually no light bleed. There's no need for after-market retailers when you choose shades from Marvin. It's a one-stop shop – you don't even need to measure for installation. Adding beauty and functionality to a home through integrated shades is now possible.

COLOR OPTIONS:

SHADES DON'T PROTRUDE AND
THERE ARE NO VISIBLE CORDS

* Denotes colors are also available in blackout fabric.
Interior shades are available in the United States and Canada.

WOOD SPECIES

DISCOVER A WIDE VARIETY OF BEAUTIFUL OPTIONS

Marvin® makes it easy to complement any project or design with an array of high-quality standard wood options, including Pine, Cherry, Douglas Fir, Mahogany, Vertical Grain Douglas Fir and White Oak. And if your project requires the one-of-a-kind look of an unusual wood species, Marvin offers many beautiful and unique options including Maple, Black Walnut and Western Red Cedar.

STAINED AND READY TO GO

Before a window or door is assembled, every piece of wood is put through our proprietary multi-step, integrated conditioning and staining process. As part of this process, the wood is conditioned, sanded and baked to provide a more ideal, lasting and beautiful finish. Staining and painting can be a tedious, time-consuming hassle. Ordering finishes that meet WDMA TM 14-09 standards direct from the factory is a great way to achieve beautiful, ready-to-install windows and doors without the mess, fumes, and time commitment.

CLAD COLORS

DISCOVER A WIDE VARIETY OF BEAUTIFUL OPTIONS

Deep, rich and lasting are words that describe the difference of Marvin® color. From subtle earth tones to bold, attention-grabbing hues, to brilliant pearlescent tones, our cladding stands out as much for its beauty as it does for its legendary durability.

Marvin's low-maintenance, clad-wood products feature an extruded aluminum exterior, finished in commercial-grade paint for superior resistance to fading and chalking. Finish strong with long-lasting color, backed by a 20-year warranty.*

20 YEAR
WARRANTY

AAMA 2605: THE HIGHEST INDUSTRY STANDARD

Not all AAMA 2605 finishes are created equal. The industry standard now allows the 2605 rating for roll-form (coil) aluminum. But there's a difference. Our substantially stronger, impact resistant extruded aluminum material – standard on all our cladding components – is about the thickness of a quarter. Roll-form aluminum, used by some window manufacturers for components, is almost as thin as a soda can.

* Some colors may not qualify for the 20-year warranty. For details contact your local dealer. For a copy of the warranty, see MarvinWindows.com.

Note: Printed color may not be an accurate representation. Ask your local Marvin retailer for color chips.

Signature custom clad casing and subsill

CASINGS & SUBSILLS

EXCEEDS SPECIFICATIONS AND EVERY EXPECTATION

Adding Marvin® clad or wood casings and subsills to your windows and doors provides great architectural detail to any home. Our clad casings are made of ultra-durable extruded aluminum, which features a beautiful factory applied finish that resists chalking, fading, pitting, corrosion and marring. Casing profiles are consistent around a window or door, except for the Potter casing profile, which has a taller head. Custom casings and subsills are also available.

DIVIDED LITES

FINISHING TOUCHES WITH THE MARVIN TOUCH

Marvin® offers a variety of ways to create the window pane patterns that you want. Choose Authentic Divided Lites for historic significance, Simulated Divided Lites for energy efficiency, or Grilles for easy maintenance. Fine detailing and craftsmanship comes standard.

SIMULATED DIVIDED LITE (SDL)

SDL is an energy-efficient way to create the look of divided lites. SDL bars are permanently adhered to both sides of the glass.

SIMULATED DIVIDED LITE WITH SPACER BAR (SDLS)

SDLS bars are combined with spacer bars installed between the glass, creating the feel of Authentic Divided Lites.

AUTHENTIC DIVIDED LITE (ADL)

Separate panes of glass are glazed between muntin bars – the way windows have been made since the beginning. (Available for wood units only.)

GRILLES-BETWEEN-THE-GLASS (GBG)

Grilles are permanently installed between the glass panes. This low-maintenance grille is available with a two-tone option.

GRILLES

Solid wood Grilles on the interior offer the look of classic divided lites, but can be easily removed for cleaning.

ENDLESS DESIGN POSSIBILITIES

Marvin Windows and Doors' custom capabilities allow us to create almost any divided lite pattern to meet your design style. Divided lites can feature an array of muntin widths, unique muntin profiles, rectangular or radius cuts and more. Choose from an existing lite cut or specify custom divided lites according to a new design.

GLASS & GLAZING

ENHANCE YOUR HOME'S ENERGY EFFICIENCY, BEAUTIFULLY

The thermal and structural properties of wood combined with the right glazing make Marvin® wood and wood clad products an optimal choice for energy efficiency. We offer thousands of window and door options with two or three panes of glass and a range of glazing options to meet the performance challenges of any climate.

INSULATING GLASS

Our standard glazing is Insulating Glass (IG) with Low E2 and argon gas. IG glass is double glazed and compared to a single glass pane, cuts heat loss significantly because of the insulating air space between the glass layers.

TRIPANE GLAZING

Tripane glazing provides enhanced energy performance. Available in products where glazing thickness can be wider than 3/4", Tripane features two coated panes of glass with a third pane between them. Marvin offers Tripane in a variety of Low E configurations for a range of solar heat gain control.

LOW E GLAZING OPTIONS

Low E coatings on the glass surface manage the amount of light and heat either conducted through a window or reflected away from it, reducing your home's need for energy-consuming climate control systems. The national ENERGY STAR® program recognizes products that meet strict energy-efficiency guidelines to suit climates in different areas of the country. Marvin window and door products are available with Low E1, Low E2, or Low E3 glazing options to meet these requirements for any climate.

LOW E1 - A single layer of metallic coating blocks heat loss to the outside while allowing the highest levels of solar heat into a room.

LOW E2 - A double layer of metallic coating provides year round performance and comfort, with better protection against radiant heat transfer than Low E1.

LOW E3 - Three layers of metallic silver provides the lowest solar heat gain performance for warm, southern climates.

GLASS OPTIONS

Marvin® offers a broad array of specialty glass options, including glazing for unique project needs like sound abatement, Sea Turtle Conservation Codes and California fire zones. A few of Marvin's decorative glass options are shown. See MarvinWindows.com for a larger selection of patterned, specialty and decorative glazing, or have our artisans create a special glass just for you.

Ultimate Casement Windows

WINDOW SAFETY

ESSENTIAL IN ANY HOME

Marvin® has always been committed to creating quality window and door products. As a company with a strong family legacy, we take the safety of our customers and their families seriously. Windows in a home should bring in light, fresh air and a view, and it's important to recognize that window screens are only intended to keep bugs out, not prevent a potential fall.

Our Window Opening Control Devices meet the ASTM F2090-10 standard, created to assist in the prevention of window falls in children under five years old. To meet the standard, our devices limit the window's net clear opening to 4" or less when the sash is opened and have a release function allowing the window to operate. In order to meet the safety standard, WOCD disengagement takes two independent actions, which helps prevent accidental release. Devices will then automatically reengage once the window is closed and again limit the window opening to 4" upon re-opening.

SCREENS

SCREENS THAT ARE THOUGHT THROUGH, NOT TACKED ON

Marvin® offers a variety of innovative screen solutions to match the style and performance needs of your project.

RETRACTABLE
SCREEN

INSWING CASEMENT
SCREEN

WOOD SCREEN
SURROUND

CASEMENT SCREEN OPTIONS

RETRACTABLE SCREEN - The innovative Retractable Screen from Marvin makes the most of the casement windows, providing a screen that lets the breeze in and easily retracts out of sight when not in use. A tight seal, a strong adjustable pull bar and hidden magnetic locking system ensure extraordinary performance and superior looks. Marvin's unique concealed design makes the screen nearly undetectable when it is in the retracted position. No more replacing screens with the seasons again.

INSWING CASEMENT SCREEN - The beautifully crafted Inswing Screen can bring in fresh air along with its classic appearance to standard or round top casement windows.

WOOD SCREEN SURROUND - The patented wood screen surround with Hi-Transparency screen mesh and aluminum exterior creates a seamless wood interior.

RETRACTABLE
SCREEN

SCREEN

TWO-LITE STORM
SASH OR SCREEN

STORM & SCREEN
COMBINATIONS

ENERGY
PANEL

DOUBLE HUNG SCREEN & STORM OPTIONS

RETRACTABLE SCREEN - The innovative Retractable Screen is a factory-installed screen that easily retracts out of sight when not in use. Like an airplane shade, the Retractable Screen provides smooth, quiet operation. The screen can be drawn to rest at one of two stop points. The resulting seal at either the sill or at the checkrail lets the breeze in while keeping insects out. The screen is released from its set position with a click of the latch on the pull bar. With lift assist action, the screen returns to its concealed position as smoothly as it was drawn. The retractable screen sets to the interior of the window.

FULL OR HALF SCREEN - Exterior screen with an aluminum surround. The full screen covers both the top and bottom sash. The half screen only covers the bottom sash.

TWO-LITE WOOD STORM SASH OR SCREEN - A wood frame containing non-removable glass. The storm sash can be removed during the summer and replaced with a wood framed screen. Available only for wood windows.

STORM AND SCREEN COMBINATIONS - A combination unit is composed of two glass panels and one screen panel that can be easily removed from the interior for cleaning. Available with a wood (bare or primed) or aluminum surround, panels can be configured multiple ways to accommodate season or preference: glass above screen, screen above glass or glass above glass. One of the panels slides behind the other for self storage when the screen is in use.

ENERGY PANEL - Often confused with storm windows, an energy panel is technically a glazing option. It is a removable, exterior glass panel finished on the edges by a surround. Energy panels cover the exposed glass surface of each sash and offer added energy efficiency for wood windows with single glazing.

Note: Magnum Double Hung screens are also available.

ULTIMATE SWINGING SCREEN DOOR - Featuring panels of extruded aluminum for a beautiful millwork appearance with traditional shadow-lines, this easy-to-install, easy-to-remove panel system requires no tools and has a clean exterior that blends into the door frame. Classic oval exterior handle and storm insert options are also available.

STANDARD SWINGING SCREEN DOOR - This tough, extruded aluminum swinging screen door matches the door, made of the same thick metal as the cladding. Solid protection and outstanding performance, with die cast handles, automatic closer and aluminum hinges.

ULTIMATE SLIDING SCREEN - Aluminum top hung sliding screen with roller bar, adjustable rollers and unmatched sliding operation. The exterior profile replicates the look of a traditional wood screen. Also available in standard top hung version for Ultimate Sliding French Doors, Sliding Patio Doors and Ultimate Inswing Doors.

STANDARD SLIDING SCREEN - Aluminum top hung sliding screen with adjustable rollers and replaceable bottom guide. Available on wood and clad-wood sliding and inswing doors.

TOP HUNG SCREEN

Aluminum top hung sliding screens come with adjustable rollers and replaceable bottom guide for flawlessly smooth operation.

WINDOW HARDWARE

QUALITY YOU CAN FEEL

Marvin® Windows and Doors' durable and elegant hardware is engineered to work seamlessly and to harmonize with any décor. Choose a finish to complement your architectural style. Satin Taupe, Bronze and White are painted finishes. These durable finishes mimic the look of metal and present a practical alternative. Antique Brass, Brass, Polished Chrome, Satin Nickel, Satin Chrome and Oil Rubbed Bronze offer the rich appearance and durability of authentic metal finishes.

DOOR HARDWARE

EVERY DETAIL SAYS "WELCOME"

Deceptively sturdy, Marvin® Windows and Doors' hardware looks too beautiful to stand up to everyday use. Despite the graceful curves, ergonomic design and elegant finishes, this door hardware is engineered for durability. Satin Nickel, Brass and Oil Rubbed Bronze finishes are available with a PVD finish. The Physical Vapor Deposition (PVD) process adds a layer of toughness to hardware exposed to environmental factors like direct sun and humidity. PVD finishes resist fading and discoloration, even in coastal areas.
